FROM: AA/Director

SUBJECT: Kennedy Space Center (KSC) 2005 Environmental and Energy Awareness Week

The KSC 2005 Environmental & Energy Awareness Week activities, in celebration of Earth Day's thirty-fifth anniversary, will be held on April 20 and 21. Environmental leadership is an important aspect of KSC operations. The schedule of events include:

- Wednesday, April 20, Opening Ceremony/Breakfast at 8:30 a.m. in the Space Station Processing Facility Cafeteria
- Wednesday, April 20, exhibits from 11 a.m.- 2 p.m. at the Operations and Checkout Building front parking lot
- Thursday, April 21, exhibits from 10 a.m.- 2 p.m. at the Vehicle Assembly Building Parking Lot E

The Opening Ceremony/Breakfast will feature Dr. Ross McCluney from the Florida Solar Energy Center, and Laurilee Thompson, founder of the Space Coast Birding and Wildlife Festival. The panel discussion will focus on environmental progress and challenges since the initial Earth Day celebration in 1970.

This is an excellent time to learn about our successes and what you can do to continue to foster environmental stewardship, energy conservation, and continual improvement through increased awareness. I encourage all of you to take part in the activities and to reemphasize our commitment to environmental leadership.

Watch for future information on the schedule of events and how to purchase a ticket for the breakfast. If you have questions about the 2005 Environmental & Energy Awareness Week, please contact John Ryan, TA-C3, at 867-8413, or Barbara Naylor, TA-C3, at 867-8452. The Environmental and Energy Awareness Week website address is <http://eeaw.ksc.nasa.gov>.
